

Photographing KIDS

Tips to get better photos with your PHONE

Achieve great results
following these 6
simple tips

Get Down:

Getting down to
kids eye level
shows the world
from THEIR
perspective

Get kids talking
about what excites
them - its a great
way to get genuine
expressions

Clean your camera
lens regularly - it
spends lots of time
in your pocket or
handbag -
fingerprints are a
common problem

Timing:

Best time to
photograph kids is
after their nap time
when they are
well rested
and refreshed

Get a sparkle in
their eye by having
them looking
towards the light -
get them looking up
at the sky creates
great catchlights

Focus on one subject:

Don't put too much in
the picture, move in
close to fill the frame
for more impact
